

Speaking test advice:

Your Speaking test will be a face-to-face conversation with an examiner. The test mimics a real-life situation as closely as possible.

- In part 1, your examiner will ask you questions about topics such as studies, home life or work. These topics will be familiar and should help you feel as comfortable as possible when you answer.
- Make sure you try to relax as much as you can so that you speak as naturally as possible.
- Before your test, it's a good idea to practice your verbal skills with a friend or teacher.
